Pascal Schlee
U.S. Patent Agent

Pascal Schlee is a registered U.S. Patent Agent, focusing on patent drafting and patent prosecution in a wide variety of technical disciplines. Some representative fields include: mechanical machinery, software applications, chemical compositions, textile manufacturing, 3D printing, medical devices, and electrical systems. In addition to his work on domestic patent applications, he has also experience in patent prosecution before the European Patent Office (EPO). Growing up bilingually in Southern California with English and German, he is also is a proficient technical translator.

Pascal obtained his Bachelor of Science degree in Civil Engineering at Rose-Hulman Institute of Technology in Terre Haute, Indiana. While attending college, he also worked as a research assistant in Rose-Hulman's Department of Civil and

Environmental Engineering, performing research on stormwater treatment through constructed wetlands and presenting findings at the Indiana Academy of Science.

In addition to working full-time at Schlee IP, Pascal currently attends the evening program at Loyola Law School, Los Angeles where he is working towards his Juris Doctor degree.
